DETAILED ACTION

Drawings

1. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4 and 14 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kotowski et al (USP 6,198,645). Kotowski et al. (USP 6,198,645) discloses a plurality of capacitors (A, B and C) with a plurality of switches (S1-S12) that are alternately connecting the capacitors in series and parallel.

Allowable Subject Matter

4. Claims 5-13, 15-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 2838

5. The following is a statement of reasons for the indication of allowable subject matter: None of the prior art discloses the use of a SET (single electron transistor) for use with a charge transformer and a test circuit.
